

Charitha Iravana Jayabahu

Full Stack Developer

charithal@live.com
+94 77 3700 779
Colombo, Sri Lanka
github.com/Rigel6306

Self-motivated Full-Stack Developer with 3+ years of experience building scalable web and mobile applications. Expert in React, Next.js, Node.js/Express, and React Native, delivering secure APIs and intuitive user interfaces. Passionate about creating seamless user experiences with clean, maintainable code.

EDUCATION

BCS HEQ Professional Graduate Diploma in IT (Level 6 Bachelors equivalent in IT),
British Computer Society
2023

BCS HEQ Diploma in IT (Level 5),
British Computer Society
2022

BCS HEQ Certificate in IT (Level 4),
British Computer Society
2021

SKILLS

Front-end
React.js, Next.js, React Native, Three.js, Motion, GSAP,
JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, DOM, Bootstrap, UI/UX

Back-end
Node.js, Express.js, TypeScript, JWT, 0Auth2, REST API, WebSockets, Redis, MongoDB, Firestore/Firebase, SQL

Tools
Git, GitHub, Expo DevTools, NPM, Yarn, Postman, Linux, GitHub Copilot, Firebase Hosting, Vercel, Netlify, MongoDB Compass, MySQL Workbench

EXTRAS

- Detail Oriented
- Cross-Platform mindset
- Secure coding and best practices
- Linux proficiency
- Fast learner, adaptable to new technologies

PROJECTS/EXPERIENCE

Fitness Gym Management System,
React Native, NEXT.Js, Node.js/ Express, Firestore/Firebase
- Built a cross-platform mobile app for gym members that manages workouts, payments, notifications, analytics, AI meal plan generation, BMI tracking, guided weight maintenance, challenges etc.
- Developed an admin panel and secure REST API in NEXT.Js for user and payment management, AI Schedule generation, Analytics

Al Trip Planner, *Next.js, TypeScript, AI SDK, Firebase*
- Created an Al-powered trip planning platform with Google Authentication.
- Integrated intelligent itinerary management and real-time updates.

RedRooster Farm E-Commerce, *React, Node.js/Express, MySQL*
- Built a full-stack food ordering platform with secure payment and order tracking.

FuturityLK Social Platform, *React Native, React, Node.js/Express, Firebase*
- Designed a cross-platform app for donations, awareness posts, and emergency care services.

Developer Portfolio Website, *Next.js, Three.js, Framer Motion*
- Showcased projects with 3D animations and interactive design.

Other Projects
- **Smart House Management System** - *React.js, Node.js/Express, MongoDB* - Full-stack web system for real estate housing management.
- **Mac Clone Showcase** - *React, Three.js, GSAP* - Recreated Apple Mac product page with 3D and scroll animations.
- **ExpeliarmusYT Contribution** - *Vanilla JS, HTML, CSS* - Contributed to UI development for a YouTube ad blocker project.
- **Plantation Management System** - *React, Node.js/Express, MySQL*- Managed plantation estates with input/output tracking.
- **Developer Portfolio Website** - *Next.js, Three.js* - Interactive portfolio with 3D animations.
- **Defender Bypass (Experimental)** - C Language Research project that extracts Metasploit Reverse shell binary concatenated into a JPEG and executes it without being detected.

NPM Packages Published
- **react-design-cursor** - An interactive React component that simulates a designer outlining UI in real time
- **lightning-overlay** - Procedural, physically inspired lightning simulator

TECHNICAL HIGHLIGHTS

- **JavaScript Expertise**: Advanced knowledge of execution contexts, closures, scope chains, memory management, event loop behavior, call stack execution and asynchronous paradigms. skilled in optimizing performance.
- **Frontend Engineering**: Built responsive, dynamic UIs with React and Next.js, leveraging advanced hooks,
- **Backend Development**: Developed secure REST APIs with Node.js/Express, including middleware optimization and authentication.
- **Mobile Development**: Created React Native apps with reusable logic and consistent iOS/Android experiences.
- **Database Design**: Skilled in SQL, MongoDB, Firestore, schema design, and performance optimization.
- **Security & Best Practices**: Applied secure coding standards, validation, and codebase management techniques to deliver maintainable and reliable solutions.
